## PROJECT PORTFOLIO

### 1. COCKTAIL COVE

*Cocktail Cove is your go-to app for exploring and enjoying cocktails from home. Discover a wide range of classic and innovative recipes, learn how to make them, and find the perfect drink for any occasion. Cheers to unforgettable flavors and moments with Cocktail Cove!*

## 2. OOP in Python Reels

*This 1:30-minute video provides a concise introduction to Object-Oriented Programming (OOP) in Python. It covers key concepts like classes, objects, inheritance, and encapsulation in an easy-to-understand way, making it perfect for beginners. By the end, you'll have a solid grasp of how OOP works in Python and how it helps in organizing and structuring your code more efficiently.*

### 3. Enrollment System

*The system utilizes Laravel to handle interactions with a PostgreSQL database and employs Java RMI for remote communication. Laravel's PHP framework effectively manages server-side operations, streamlining tasks like student registration and course management. The design prioritizes reliability, efficiency, and user-friendliness.*
